

MEDICAL PRACTICE WANTED: UNIQUE OPPORTUNITY

Major Grant for physician(s) looking to expand their existing medical practice in Nevada. The Whittemore Peterson Institute, WPI, is seeking an existing medical practice with a desire to grow. We have no-cost clinical space, equipment, and significant financial support for a physician or full-time nurse practitioner. Adding this location to your practice is a unique opportunity to live and work near Lake Tahoe, where winter skiing and summer boating are only 35 minutes away. If you dream of extending your private practice and desire to spend more time with your patients, this is right for you.

WPI seeks an experienced Nevada-licensed physician, MD or DO, to expand its medical practice. The offices are furnished and ready to open. The Whittemore Peterson Institute (WPI) offers this grant-funded position at the Center for Molecular Medicine on the University of Nevada, Reno medical campus. In addition to the Grant, you can keep the profits.

The WPI Collaborative Medical Grant includes an exam room, waiting room, infusion space (6 chairs), and a large conference room at no cost. In addition, the Grant consists of partial salary support for a nurse practitioner or physician for the first twelve months from the beginning of the practice. This Grant may be renewed subject to the agreement of the parties. Providers must be insured and licensed in the state of Nevada. Practice within this clinic must prioritize patients with complex, post-infectious illnesses, including but not limited to ME/CFS and Long COVID, three days a week. In addition to the practice, providers can engage in clinical trials and basic research if desired.

PROVIDER'S ROLE:

- Internal Medicine/ Family Practice/MD or DO/ Nurse Practitioner licensed in Nevada
- Provide evaluations, treatment, and medication management in the outpatient setting.
- Prioritize patients with ME/CFS, Long COVID, and other complex illnesses.
- Physicians will document patient visits and monitor and facilitate activities related to patient care.
- Provide medication management and chronic disease management
- Work with a support team to provide continuity of care

BENEFITS:

The Grant includes support for one physician or nurse practitioner, private ownership of the clinical practice, paid parking permits, a furnished exam room, a waiting area, an infusion room, access to a large conference room, main administrative offices, and basic and clinical research opportunities. You keep the profits from your practice.
